

Markdown Extension Examples

This page demonstrates some of the built-in markdown extensions provided by VitePress.

Syntax Highlighting

VitePress provides Syntax Highlighting powered by Shiki, with additional features like line-highlighting:

Input

```
```js{4}
export default {
 data () {
 return {
 msg: 'Highlighted!'
 }
 }
}
...

```

#### Output

```
export default {
 data () {
 return {
 msg: 'Highlighted!'
 }
 }
}

```

### Custom Containers

#### Input

```
::: info
This is an info box.
:::
```

```
::: tip
This is a tip.
:::
```

```
::: warning
This is a warning.
:::
```

```
::: danger
```

This is a dangerous warning.

:::

::: details

This is a details block.

:::

## Output

This is an info box.

This is a tip.

This is a warning.

This is a dangerous warning.

This is a details block.

## More

Check out the documentation for the full list of markdown extensions.
